

Manage daylight  
flexibly and stylishly.

With WAREMA external venetian blinds

*Der SonnenLichtManager*

A young couple is shown in profile, looking out a window. The woman is on the left, smiling slightly, and the man is on the right, also smiling. They are both looking towards the right side of the frame. The background is a blurred city skyline with buildings and a clear sky. The overall mood is bright and positive.

Create a feel-good  
indoor climate.

Do you want to control the sunlight in your home according to the time of day? Create unique lighting effects and a genuine feel-good climate in your home?

As the market leader and leading SunLight Manager, we at WAREMA have been developing high-grade and design-oriented external venetian blind solutions for over 50 years. Whether for new buildings or renovations: our systems can fit into any building facade harmoniously and guarantee flexible daylight utilisation at any time – perfectly attuned to your wishes. For a real boost to your living quality and maximum energy efficiency.

View out and visual privacy  
perfectly combined:  
ProVisio technology

Standard external venetian blind

External venetian blind with ProVisio

An external venetian blind with the ProVisio technology does not only keep heat and the sun's rays out. Thanks to the different angles of the slats and designed to mimic the human angle of sight, it also protects against prying eyes – with a good view out at the same time and optimum daylight utilisation. The view out through the slats is noticeably improved whilst your deserved privacy is maintained. On top of that, you can enjoy a comfortable indoor climate with maximum energy efficiency all the time. A real extra in living quality!

## A perfect solution – also for renovations: front-mounted solutions

Do you want to combine an attractive facade look with perfect daylight utilisation? Our front-mounted external venetian blind offer you all options and can be perfectly combined with front-mounted roller shutters. The solar drive that can be integrated upon request saves you from having to route power cables when retrofitting. The front-mounted external venetian blind also impresses with its design, with numerous colour options and an attractive cover panel shape. For an individual sun shading solution exactly as you want it.

### ► WMS – WAREMA MobileSystem

Whether with a WMS hand-held or wall-mounted transmitter or via smartphone using WMS WebControl – with WMS you can always control external venetian blinds etc. conveniently via radio.

### ► Integrated insect screen roller blind

The insect screen roller blind makes sure you are always protected from unwanted pests.

## The all-rounder for every requirement: facade solutions

As a real “classic”, our facade external venetian blinds offer everything that you need for a pleasant feel-good atmosphere within your four walls. The systems can be installed on almost any facade. Various colours and slat geometries guarantee full design freedom for you in sun shading planning. Asymmetrical external venetian blinds are also available for asymmetrical glass surfaces. This is the SunLight Management of today.

► **WAREMA Wisotronic**  
Wisotronic is perfectly suited to controlling various sun shading products. It creates a comfortable indoor climate and a cosy living and working environment – even when you aren't there.

## Always perfectly integrated: window solutions

Venetian blind window system and top-mounted external venetian blinds for new buildings can be quickly and easily installed directly onto the window and offer the perfect sun shading solutions for new buildings and renovations. They are integrated into the facade so as to be almost invisible or set visual accents according to your wishes. Look forward to attractive design freedom for relaxed living and working – always in the right light.

► **WAREMA climatronic® 3.0**  
Let the slat angle of your external venetian blinds be controlled according to the position of the sun conveniently and in a way that saves energy. Operation via an app is also possible on request.

**Your added security and comfort:  
equipment & accessories**

### **Integrated fall protection**

A window pane on floor-to-ceiling windows reliably protects you, and above all your children, from falling. Add it to your plans now!

### **Dim-out slats**

Ideal for bedrooms: the slats perfectly interlock thus allowing reliable dimming.

### **EasyClean coating**

Less work thanks to the self-cleaning effect: the special coating softens dirt particles and carries it away with enough water.
